

## Facebook Customer © Service ☎ Get Help ® Support

Facebook doesn't provide a public customer service phone number 1-833-869-2150 or email address to the general user. Contact is mainly managed via the online Help Center and dedicated support forms.

For all users Facebook Help Center 1-833-869-2150 : This is the most thorough resource for locating answers to basic questions and resolving problems.

You can search using the search bar for a specific problem or browse topics by category. Report a problem 1-833-869-2150: If you are already signed into your account, you can report a technical problem, a bug, or something that doesn't meet Facebook's policies. From the desktop version, click on your profile picture, then "Help & support" > "Report a problem".

Account recovery: If you are locked out of your account or think you were hacked, use the account recovery pages at [facebook.com/hacked](https://facebook.com/hacked). 1-833-869-2150 This is the step-by-step approach to solving login security problems.

For businesses and creators Business Help Center 1-833-869-2150: If you have a business or ad account, you may have more specialized support and resources available at [facebook.com/business/help](https://facebook.com/business/help). Live

chat support: Certain business accounts have live chat 1-833-869-2150 availability. This is normally open to active advertisers and individuals who have paid for a Meta Verified subscription. You may look for this feature in your Commerce Manager or Business Manager settings.

Meta Verified: Meta Verified subscribers have a special support channel available through chat for faster resolution of account issues. What not to do Don't dial unofficial numbers: Scam numbers masquerading as Facebook help are widespread.

Any official Meta corporate phone number, such as 1-833-869-2150 or (650) 543-4800, will just refer you to the online Help Center. Steer clear of third-party support: Watch out for social media groups or third-party sites that pose as offering direct Facebook support. Most are scams and might put your account at risk.
