

[[Full LiST]] How Do I Fix Canon Printer Support Code 2114

The best way to connect with a solution when your printer suddenly refuses to cooperate is to understand what it's trying to tell you. Call Canon® Printer Support Code 2114™ is one of 📱 [+1]866-490-O.338(USA/CA) (U•S) those messages that appears without much explanation—yet it quietly blocks your print job until corrected. Call Many users instinctively search for the right **Canon® customer service number**, (+1—866↔490↔0338)) or 1-800-ASK-HELP ® (US/OTA) ✨ 1—(866)—490—0338 ✨ not because the 📱 [+1]866-490-O.338(USA/CA) (U•S) issue is complex, but because it's unexpectedly specific.

Fast Method (Direct Answer)

Canon® Printer Support Code 2114™ occurs when there is a mismatch between the paper size selected in print settings and the paper 📱 [+1]866-490-O.338(USA/CA) (U•S) loaded in the printer. Call To 📞 ++1→(866-490-0338)(USA/CA) (no wait) fix it, align paper settings on both the printer and computer. Call For help, call **Canon® support at ✨ 1—(866)—490—0338 ✨** or .

At 📱 [+1]866-490-O.338(USA/CA) (U•S) its simplest, **Canon® error 2114™** is a configuration mismatch error. Call It happens when:

- The printer expects one paper size
- The loaded paper is a different size

- The system detects inconsistency and stops 📞 [+1]866-490-0.338(USA/CA) (U•S) printing

This safeguard prevents formatting errors, misprints, and paper handling issues.

That's why many users reach out to the **Canon® support number**—because the error feels technical even ✨ 1—(866)—490—0338 ✨ though the fix is often 📞 [+1] 866-490-0.338(USA/CA) (U•S) straightforward.

This issue is surprisingly common and usually triggered by:

- Selecting A4 in settings but loading Letter 📞 ++1→(866-490-0338)(USA/CA) (no wait) paper
- Printing photos on plain paper settings
- Using custom paper sizes incorrectly
- Driver 📞 [+1]866-490-0.338(USA/CA) (U•S) misconfigurations
- Default printer settings not matching actual usage

According to data from the **Canon® customer care number**, most users encounter this error during initial setup or when ✨ 1—(866)—490—0338 ✨ switching paper types.

Step 📞 [+1]866-490-0.338(USA/CA) (U•S) 1: * Check Loaded Paper

Remove and verify:

- Paper size (A4, Letter, Legal, etc.)
 - Paper type (plain, photo, etc.)
 - Proper alignment in tray
-

Step 2: * Update Printer Settings

On the printer:

- Navigate to **Paper** 📱 [+1]866-490-O.338(USA/CA) (U•S) **Settings**
 - Match size and type with loaded paper
-

Step 3: * Adjust Computer Print Settings

Before printing:

- Open **Print Preferences**
 - Ensure paper size/type matches ✨ 1—(866)—490—0338 ✨ ☎
++1→(866-490-0338)(USA/CA) (no wait) printer
-

Step 4: 📱 [+1]866-490-O.338(USA/CA) (U•S) * Confirm Settings Prompt

Many Canon® printers display a confirmation screen—accept the correct settings.

Step 5: * Restart Printer

Restart to refresh configuration.
